Paving set for US 23 north of Greenup in Greenup County *One-lane work zone for next two weeks*

FLEMINGSBURG, Ky. – Pavement improvements on nearly four miles of US 23 in Greenup County will require one-lane travel north of Greenup through the end of June.

The work, which will take place between KY 3116 South and KY 3116 North in the Lloyd-Grays Branch area, is being done under a \$1.3 million low-bid contract between the Transportation Cabinet and Mountain Enterprises Inc.

Construction is scheduled to start next week with milling – the removal of old asphalt – on Monday or Tuesday, June 18-19. Full paving operations are expected to begin by Wednesday or Thursday, June 20-21. Paving will take approximately two weeks.

Throughout construction, motorists should expect one lane travel on US 23 during daytime work hours. Motorists should watch for lane closed signs in advance of the work zone, slow down and merge carefully.

Efforts will be made to keep lane closures short and minimize delays. However, longer drive times, especially in heavy traffic, are possible. Travelers should plan routes accordingly, stay alert for workers and construction equipment when driving, and remember that construction schedules are dependent upon the weather.
